You Need A Pension!

It's Much Better than an **RRSP** 

### **The Defined Benefit Pension Plan Advantage**

**More Money** Permanent Accumulation

**Survivor Benefits** Take care of Loved ones

**Predictable and** Secure **Reduce Risk** 

**Professional** Management

### **Peace of Mind**

**Defined Benefit Pension Plans** provide a predictable income stream in retirement, which is not subject to market fluctuations.

This ensures financial stability, allowing you to plan your future with confidence.

**99** *Compound interest is the eighth wonder of the world. He who understands it* 

earns it; he who doesn't pays it.

~Albert Einstein

## The Rule of 72

Have you ever wondered how long it will take for your money to double?

All you need to do is divide your interest rate by the number 72!

For example, an investment paying 8% will double in approximately 9 years because 72 divided by 8 equals 9.

### Make More Money

RRSP matching, while better than nothing, is NOT A PENSION.

Defined Benefit Pension Plans, on the other hand, are the Gold Standard of pensions and should be what every unionized workplace strives to achieve.

# The Problem with RRSPs and RRSP Matching

While RRSP matching schemes *can* be a useful tool for saving, they have several limitations compared to Defined Benefit plans:

Investment Risk No Guarantees

**Contribution Limits** You'll have to figure out

#### Management Fees

Don't pay for someone else's retirement
